Konfiguration und Pull-Request

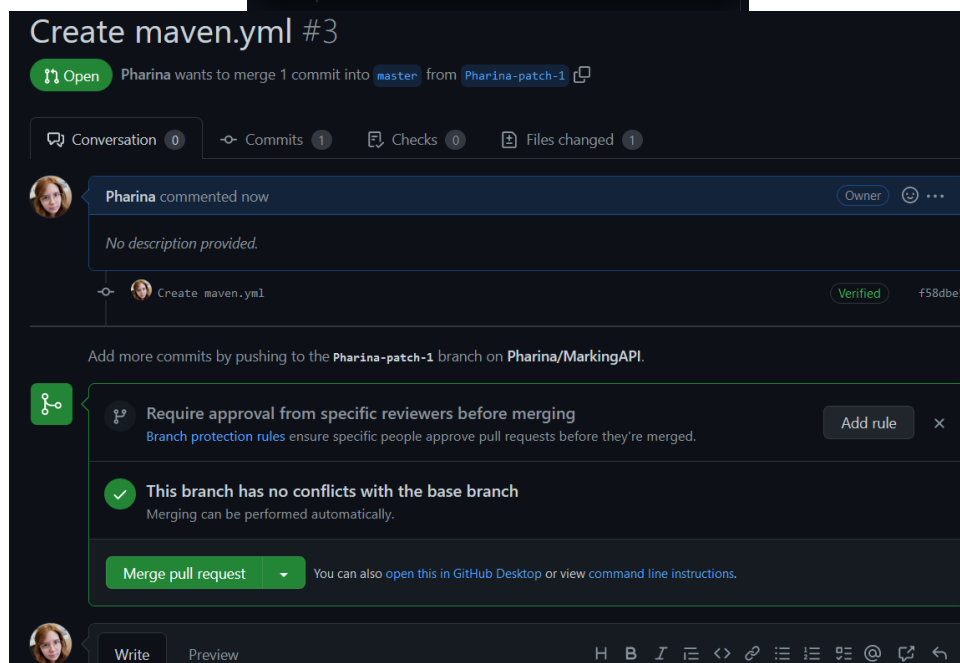

The screenshot shows the GitHub web interface for the 'MarkingAPI' repository. The file path is '.github / workflows / maven.yml' in the 'master' branch. The file content is as follows:

```
21
22 steps:
23 - uses: actions/checkout@v3
24 - name: Set up JDK 17
25   uses: actions/setup-java@v3
26   with:
27     java-version: '17'
28     distribution: 'temurin'
29     cache: maven
30 - name: Build with Maven
31   run: mvn -B package --file pom.xml]
32
33 # Optional: Uploads the full dependency graph to GitHub to improve the quality of Dependabot alerts this repository can receive
34 - name: Update dependency graph
35   uses: advanced-security/maven-dependency-submission-action@571e99aab1055c2e71a1e2309b9691de18d6b7d6
36
37 - run: mkdir download & cp target/*.jar download
38 - name: Upload a Build Artifact
39   uses: actions/upload-artifact@v2
40   with:
41     name: Build
42     path: download
```

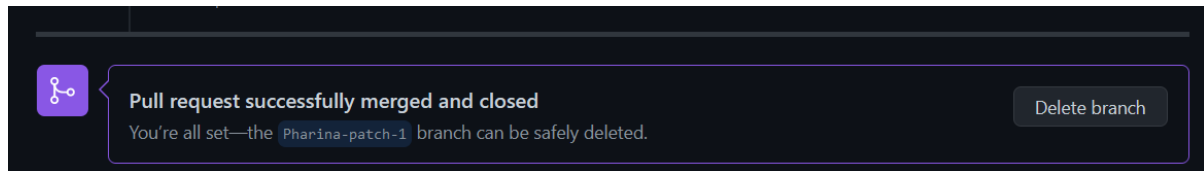

The 'Commit new file' dialog is shown. It includes a text input for the commit message, currently containing 'Create maven.yml'. Below the input is a description field with the placeholder text 'Add an optional extended description...'. There are two radio button options: 'Commit directly to the master branch.' (which is selected) and 'Create a new branch for this commit and start a pull request. Learn more about pull requests.' Below these options is a text input for the branch name, currently containing 'Pharina-patch-1'. At the bottom is a green button labeled 'Propose new file'.

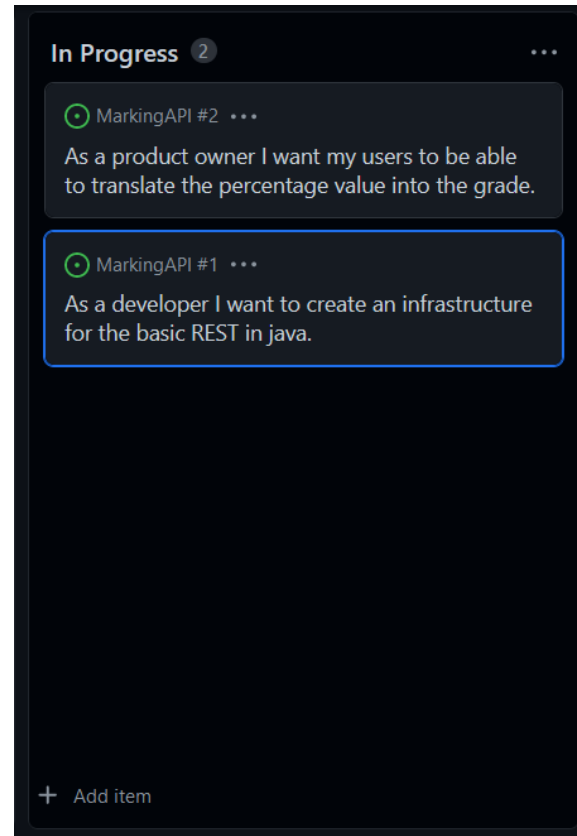

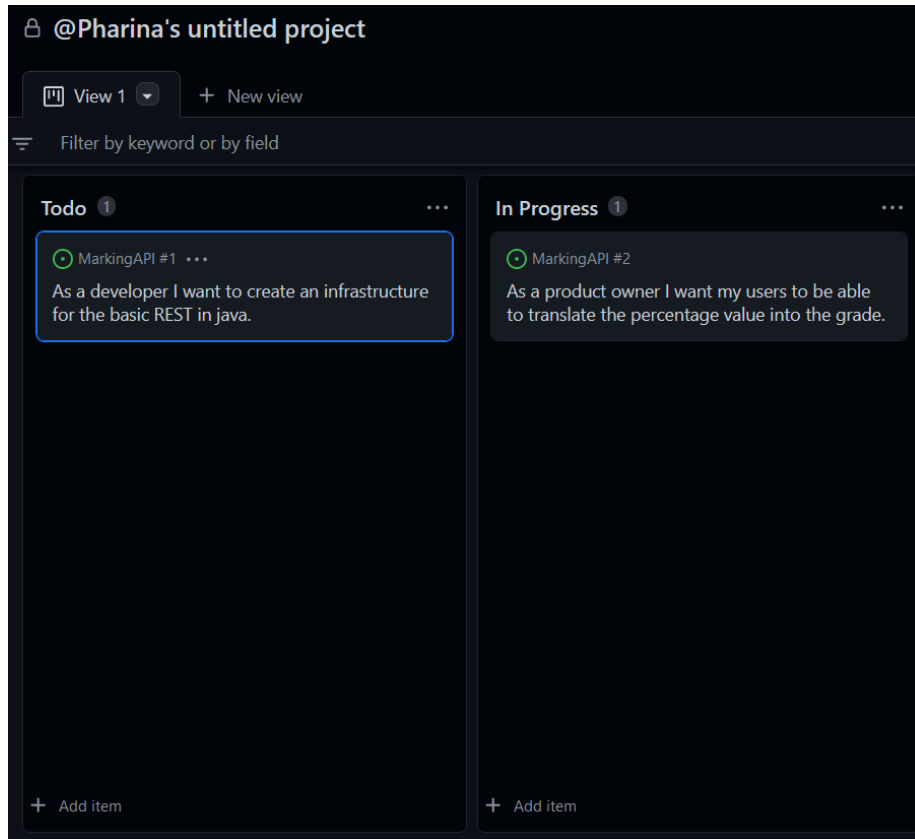

The screenshot shows the GitHub pull request page for 'Create maven.yml #3'. The pull request is from the 'Pharina-patch-1' branch to the 'master' branch. The page includes a comment from 'Pharina' stating 'No description provided.' and a commit titled 'Create maven.yml' with a 'Verified' status. Below the comment, there is a section for 'Branch protection rules' with a rule 'Require approval from specific reviewers before merging'. A green checkmark indicates 'This branch has no conflicts with the base branch'. At the bottom, there is a green button labeled 'Merge pull request'.

Issue von To-Do in In Progress verschoben:

Wenn der Teil mit dem Code passen würde und alles funktionieren würde, würden die 2 User Stories in Done rübergeschoben werden und die Issues als closed markiert werden:
